to have a better one but as I say
the price is too much for me.

Gentlemen

I have examined the Catalogue of the Hazelton pole on the 24 & 25th inst and find that the pieces I might purchase are either Shatted or Shacked and therefore I do not want them. There are a few half cents however which if you should buy so as to sell them at a reasonable price I would like to see but do not buy them on my account alone. the pieces are No 851. 1797/100 cent 860. 1811 1/2 cent 866 1829 1/2 cent & No 881 1853 1/2 cent

Gentlemen

Your package of Coins sent me on approval came late Monday evening and I have been unable to see Mr Clemens until this morning which is my apology for keeping them so long

The 1804 Cent is indeed a very superb piece, and is the finest silver Mr Clemens or myself ever saw but the name Penalized on it Spoils it for either of us and so I return it the other pieces I also return as I am not now collecting silver Coins I am much obliged for your kinde offer to give me time

on payment of coins should I need it, and assure I fully appreciate it, but do not need it

Should your receive any first class Copper cents, especially proofs please let me know price and condition and I will let you know us at once whether to send them on approval or not

Yours respectfully,

T. B. Dewees
